CARE NET

A Focus on the Family Option
Ultrasound Center

Choice. It's a word with a lot of baggage. The so called pro-choice movement has claimed this word and declared that "choice" is a woman's God given right. Surprisingly, most women and men seeking an abortion feel they have no choice at all. Abortion is the only answer they can envision. We frequently hear the words, "I have to get an abortion, I have no choice."

This is an exciting season of growth for our ministry. By early this summer, two pregnancy ministries will join forces and truly provide a choice—the choice for Life. Crossroads Pregnancy Services of Monroeville will partner with Pregnancy Care Centers and a new ministry will emerge. Women's Choice Network will be born. This network will place our life saving medical services in a larger, more visible center in the heart of Oakland. Serving the 43,000 students living on campuses there, a college outreach will be launched. Our Urban Initiative will serve the African American population and place resources and services right in the neighborhoods of highest need.

Women's Choice Network is you. It is the Body of Christ proclaiming the truth to men and women without hope and without choice. Thank you for your partnership with this exciting life transforming ministry. Your recent gift of Donation : Donation Amount allows us to affirm the choice for life.

As you celebrate the Easter season and the emergence of Spring, remember that our Lord made the choice to give His life for ours. He gave us the choice to follow Him. He is the author of Life.

Thank you again for your generous partnership,

Amy Scheuring
Executive Director
