

How does the Baby Bottle Campaign help women?

In 2008, over 11,500 bottles were distributed in 86 churches raising over \$80,000. These gifts directly support our services enabling both all of our locations to provide medical services such as pregnancy testing and limited obstetrical ultrasound to our clients at no charge.

The Women's Choice Network's Urban Initiative and our Campus Project expands our effectiveness in urban neighborhoods and campus communities where women are most vulnerable to abortion. We continue to providing the latest technology in a professional faith-based setting.

*Every filled bottle is a gift that helps to save a life.
Join us as we make a difference, one life at a time.*

Baby Bottle Campaign Checklist

The Baby Bottle Campaign is so easy to implement. We can deliver your bottles with an attractive display and then pick them up at the conclusion of the campaign.

It works best as a one-month campaign when you follow these important steps:

- _____ Choose a "Point Person" to head up the Campaign at your site
- _____ Determine the number of bottles needed. (Same as number of bulletins printed or one or two per family unit)
- _____ Choose a start date and an end date four or five weeks later.*
- _____ Order bottles from Linda Frank, our BBC coordinator (412-417-4829) at least one month prior to your start date.
- _____ Place announcements in weekend bulletins and newsletters two weeks in advance.
- _____ Plan a "pulpit" announcement or invite a speaker to kick off your campaign.
- _____ Place the bottles in visible, convenient locations in your building and assign a small team to help pass them out.
- _____ Post collection reminders one week before your end date.
- _____ Make baskets available for collection.

*Mother's Day (May), Celebrate Life Month (Oct.), and Sanctity of Human Life Month (Jan.) are suggested dates.

Why support the Women's Choice Network?

Everyday, thousands of tiny babies are threatened by abortion. Their young mothers face overwhelming circumstances along with enormous pressures and fears. They need someone to open their eyes to life's possibilities. And now that we offer ultrasound right in our offices, we can help young parents see life as God sees it. Over 85% of our clients who see an ultrasound image choose to continue their pregnancy. All of our new moms receive ongoing education and practical support.

Our services are free and are entirely supported by gifts from individuals and organizations like yours.

Choosing Life

We served over 800 women in the last year with pregnancy testing, ultrasound, counsel, and practical help. Hundreds of these women faced an unplanned pregnancy and were considering abortion. 241 babies were born and now reward their parents with the joy of knowing they made the right choice.

Choosing Christ

Our support groups place dozens of women into accountable Christian relationships. Our Ruth and Naomi and Dr. Dad programs care for men and women one on one. In the context of these practical experiences, the gospel can be clearly presented to moms, dads, and their young children. Many have found healing, reconciliation and restoration in Christ and continue to grow in their faith.

Our mission is to reach the woman most vulnerable to abortion and open her eyes.

What is the Baby Bottle Campaign?

Dozens of area churches, organizations, and schools are looking forward to the Women's Choice Network Baby Bottle Campaign. Why join this unique fundraiser? Because...

...it's informative.

The Women's Choice Network helps women to see the unseen. We give hope and encouragement to make choices for life and for purity in relationships. The Baby Bottles remind families of our mission and of our commitment to care for "the least of these."

...it's simple.

Just take a bottle home and begin filling it with loose change, cash, or a check. Or take the opportunity to enclose a gift that honors a special person in your life or as a memorial to commemorate a lost loved one.

...it's for everyone.

The Baby Bottle Campaign enables everyone to participate in a small but meaningful way. Each family member from the youngest preschooler to the oldest grandparent can add their contribution to the bottle that saves babies.

Take home a bottle today...because every baby deserves a birthday!
