What we do:

- Our Medical Clinics provide pregnancy testing, STD testing and treatment, sonogram, Medical consultation and life-saving options to abortion. Our clients are also offered adoption referrals, post abortion care and abstinence education.
- All of our Centers serve under the direction of a Medical Director and a professional Medical Staff. All services are provided at no charge to our clients.
- Each of our clients is encouraged to enroll in "Baby Steps," our ongoing accountability program that enables families to earn while they learn. Childbirth, parenting classes, and life skill programs allow clients to earn clothing, furnishings, formula, and other items for up to two years.
- Our outreach extends to schools, Churches, and community groups as we share the benefits of sexual abstinence and the message of the Sanctity of Human Life.

What Makes Us Unique:

- **We're Intentional.** Our name, advertising, locations and marketing efforts are carefully chosen to reach those who are vulnerable to abortion.
- **We're Medical.** Women's Choice Network is a Medical Network headed by a Medical Director and led by a Medical Staff. A professional staff in each Center provides Ultrasound, STD testing and treatment, and Pregnancy testing.
- **We're Faithful.** We are a faith based non-profit. We pray for each of our clients and seek opportunities to share God's plan and place clients in nurturing Church families.
- **We're Compassionate.** We provide ongoing practical care for all of our clients regardless of their ultimate decision and offer Post Abortion Counseling to all in need of healing and hope.
